Work History

.NET Developer

Coder Foundry

- Created Antidote, fully functional multi-tenant issue/ticket tracking system using ASP.NET MVC and PostgreSQL. Enables companies to track projects and trouble tickets lifecycle in system. Implemented user and role based security to establish separation of duties.
- Created Code Talk, blog platform using ASP.NET MVC and PostgreSQL. Implemented role based security system, file upload, search, and email service. Designed to be easily packaged and shipped to others for hosting and use. Database interaction done through LINQ to Entity Framework. Established API to push blog posts to portfolio.
- Created Blackbook Pro, fully functional contact management site using ASP.NET MVC and PostgreSQL. Enables users to store contacts, filter by category, search and email contacts directly or by category. Database interaction done through LINQ to Entity Framework.
- Created Portfolio Site, CaseySpaulding.com, static site to showcase my abilities as developer using HTML, Javascript, CSS and Bootstrap. Called on Code Talk API to populate blog posts.

2019-08 - 2021-04

Teacher

Patrick Henry High School, San Diego

- Coach for Cyber Patriot Team - The mission of CyberPatriot is to train the next generation in the art of cybersecurity, defending against intrusive programs, security breaches and maintaining the overall security of the networks

1998-07 - 2019-06

Communications Manager

United States Navy, San Diego, CA

- Built and maintained relationships with key clinicians, spokespeople, advocates

and opinion leaders.

- Expanded cross-functional organizational capacity by collaborating across departments on priorities, functions and common goals.
- Recruited and hired top performers to add talent and value to department.
